

24/7

Supported by clinically reliable implant systems, **trusted international manufacturing** partners, and consistent availability across Gauteng and surrounding regions with **expansion plans** forthcoming.

We are always operating, same as you. Day and Night.

Our model is built around a **centrally located** Midrand distribution hub, strong theatre support, dependable stock consistency, rapid turnaround times, and **operational alignment with South African healthcare realities.**

Duzane delivers a **complete orthopaedic solution** built on experience, strengthened through partnerships, and executed with precision at every stage of delivery.

Duzane.com

Duzane is a **high-performance South African** medical devices company built by leaders who have spent over 25 years shaping the country's orthopaedic landscape. After steering major global brands such as J&J and Smith & Nephew at senior executive level, our founders established Duzane to create a company purpose-built for South Africa's private and public healthcare environments.

*Looking forward to shaping
the industry with you.*
